## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Mraz (US 20010015573).

Mraz discloses a mining apparatus (see Figs. 1-3), comprising: a miner (1); a conveyor unit (4,5); a steering unit (12, see paragraph [0004, 0016, 0051, 0064], claims 4,10) connecting said miner and said conveyor unit; a positioning sensor ([paragraph [0064]]); a controller responsive to said positioning sensor (see paragraph [0004, 0016, 0051, 0064], claims 4,10), a first actuator (12) carried on one of said miner, said conveyor unit and said steering unit, said first actuator positioned to a first side of a midline of said miner; and a second actuator (12) carried on one of said miner, said conveyor unit and said steering unit, said second actuator positioned to a second, opposite side of said midline of said miner; whereby said first and second actuators adjust a connection angle between said miner and said conveyor unit either side of parallel to determine a directional heading for said miner.

### ***Response to Arguments***

2. Applicant's arguments with respect to independent claims have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***
